Colorado Springs, CO 80962

Dear Steve:

First of all, thank you for rescuing us and making it possible for Don to maneuver in his own home. With his fractured hip and paralyzed right side as a result of a 1988 stroke, he could well have been trapped in a little corner.

Your expertise and knowledge of what could be done and the speed with which you did it was wonderful to watch. Your solutions for clearing the floor, so that Don could get from one room to another, by building shelves into the walls both upstairs and downstairs was pure genius, thereby getting rid of big pieces of furniture. The shelves are beautiful. They are filling up rapidly.

The grab bars and railings now make it possible for Don to go anywhere he chooses in the house. And they are polished and very elegant.

I must also mention the folding seat and grab bars in the stand-up shower and the two extra high toilets with arm supports.

The kitchen is now bright and sunny with the skylight.

Also, thank you for all the little extras.

We hope to see a lot more of you in the future but we thought you would like to know how pleased Don and I and of course, Martha, are with your work -

Sarah Hyde
