Dear Steve:

Our Thanks to you for a job well done!

When we first came in contact with you on the remodeling of our home, you told us you could produce a pleasant addition that we would be pleased with and you were correct. We are so happy with the workmanship and the unique structure you designed for us.

Your creativity in the design and your finished job shows your complete knowledge of all phases of construction. Your word and integrity is important to you, to the point you carry out everything you agree to do.

In any further construction we are involved in we will call on you and will gladly recommend you to our friends.

Sincerely,

Ray Powers
